Would you choose to read minds or is ignorance bliss? When Chloe finds out she has inherited a skill that will allow her to learn to read minds, she is excited to have an insight into what people think and feel. Initially, mind-reading appears to be an amazing gift as Chloe excels at work, using her skill to manipulate clients. However, Chloe soon comes to the realisation that those people closest to her rarely say what they think. She is heartbroken to find out that her best friend lusts after her husband and that her husband fantasises about other women. Unable to stop her mind-reading, Chloe is left with the dilemma of how she can live with her new found skill. Chloes life takes on an unexpected new direction as she adapts to reading minds.
