

## Dante and His Early Biographers (Classic Reprint)

Excerpt from Dante and His Early Biographers This book represents, in a somewhat expanded form, the substance of three Lectures which I delivered in 1889, as Barlow Lecturer on Dante in University College, London. Though the plan of a great part of the work precludes much claim to originality, I believe the discussion of the authorship and mutual relation of the two forms of the Life of Dante attributed to Boccaccio will be entirely new to English readers. I cannot find, either from any published work, or from inquiry among fellow-students of Dante in England, that this curious problem has as yet received any attention in this country, though it has given rise to a great deal of discussion both in Italy and in Germany.
